

NSF/Food Grade: Colder Products Company manufactures many products specifically for the Food & Beverage marketplace. All of these products are listed under NSF/ANSI standard 169 and are made from FDA approved materials. All of our NSF listed products are available with built-in shut-off valves that automatically shut off the media when you disconnect the coupling. Visit www.colder.com to learn more.

Applications may include: office coffee service, water filtration, condiment dispensing, dairy processing, and flavoring and scent production.
